

Broadfield Specialist School

Work Experience Case Study - Charity & Voluntary

Sabrina - Year 14

Age UK
Lancashire

Employer Description

The Age UK shops are crucial to the work of their organisation. They help them raise much-needed cash which they can use to provide services which are not funded by other agencies. They are also a great place to find good quality clothes, books and other items at very reasonable prices and also provide information on a range of issues relevant to older people.

Their shops operate to a high standard with fully trained staff and volunteers, and rely on donations of goods to sell. Anyone interested in donating items to be sold can drop things in to their local shop.

Role and Responsibilities

Whilst working at Age UK Lancashire it was Sabrina's role to sort the donated clothing, discarding items unsuitable for re-sale. She tagged them using the label gun and put the clothing on coat hangers along with the appropriate size cube.

Comments from Sabrina

The staff are friendly. I like putting size cubes on the coat hangers and hanging up the clothes. Thank you it was good!

Comments from the Employer

Sabrina works well and is a very pleasant girl. Her attendance and timekeeping are excellent.
