

Friday 24th February— Saturday 25th February— One Night

Broadfield Specialist School

Saturday Club Residential

We left school at 3.30pm on the Friday and travelled in our school minibus to Salford Quays where we checked in to the Premier Inn. After getting changed we walked across to The Lowry Centre where we had our evening meal at Nandos. After that we watched 'Lego Batman' at Vue Cinema before walking back to the hotel. After cocoa and cookies it was time to get ready for bed.

We got up at 8am to enjoy a leisurely breakfast. The buffet at 'Beefeater' had everything you could imagine for breakfast and on top of that the waitress brought us a cooked breakfast! We then said goodbye to the staff at the hotel and got back on the minibus to go the short distance to 'Media City' where we met up with some other students from school for and our arranged tour of the BBC.

The tour was amazing—we saw the Blue Peter studio, the large studio where they film 'Jeremy Kyle', Radio 6 music studio and the students had the opportunity to be 'TV stars' in a studio using the autocue and being filmed. Sam Calvert was our 'weatherman' and disappeared before our eyes using green screen technology!

After the tour we went to The Lowry Centre where we had lunch and had time to look at the shops and the

amazing lego sculptures they had on display. The students asked if we could stay another night but unfortunately we had to return to school! All the students really enjoyed themselves and were a pleasure to take on the trip!
