

Calvert Trust Residential

What a fantastic week we had. When we arrived we settled into our room and then met the team we would be with all week. There were ten of us altogether and Tory was our group leader. We were in Dodd group and our week was filled with action packed activities that tested myself (Mrs Pye) and Sabah. I think the activity that tested us the most was the Abseiling down a cliff - but we did it! We went canoeing, sailing, horse riding and enjoyed learning archery. We climbed an inside climbing wall and Sabah reached the top with no problems. We both had a wonderful time but sadly had to return home!
