

Work Experience

Key Stage 5

Students in College have now finished the work placements they started in September. They have all had a 10 week block, attending each week for a morning or afternoon depending on the placement. The majority of students have thoroughly enjoyed the experience and looked forward to the sessions.

More students will start their placements after the Christmas break. We have been fortunate in securing some new placements that suit the interests of our students.

Employers have been really supportive; we can't thank them enough for giving our students this opportunity. Without them our work experience programme wouldn't exist!

Thank You!

Huncoat Community House

A small group of students have been involved in our life skills programme at Huncoat Community House. This is owned by Hyndburn Homes who very kindly gave us permission to use it for one day a week. We shopped for ingredients for lunch and made it afterwards.

June Smith from Asda worked alongside us educating our students on all aspects of Independent Living.

They learnt many skills whilst there that will prove invaluable in life. All the students enjoyed the experience and gained a lot from it.
