Calvert Trust

In April two students and a member of staff took part in a residential trip to The Calvert Trust near Keswick in The Lake District.

Saturday—On arrival we were shown to our rooms, met all the others on the trip and then went for a long evening walk after we had our meal.

Sunday— After a hearty breakfast we took a Lakeland walk with the rest of the group and returned to the lodge for lunch. In the afternoon we spent time at the swimming pool and sensory area.

Monday—Today we had a bike morning followed by a nature reserve walk. The afternoon was very exciting as we took part in a high wire assault course!

Tuesday—In the morning we had fun on the indoor climbing wall - we were all very proud of Georgia as she managed to climb to the very top of the wall. In the afternoon we learnt 'bush craft' skills which included learning how to make a fire. Once the fire was going we toasted marshmallows and made popcorn.

Wednesday—This was one of our favourite days and the weather was very kind to us. We spent the whole day on a catamaran on Lake Windermere before returning to the lodge for our evening meal.

Thursday—In the morning we had a go at horse riding which was amazing. After lunch we went canoeing on the lake and Megan managed to soak us all by splashing us with her paddle! In the evening we had a farewell disco to say goodbye to all the new friends we had made.

Friday—We packed our things and said our goodbyes—then we drove into Keswick to have a look at the town. On the way back to school we stopped off in Kirby Lonsdale for a picnic lunch and continued to get back to school for 3pm.

We all had a fantastic time (and the food was great too!) and were proud that both students had participated in all the activities they were offered. We all did things that we never dreamed we would ever do!

A BIG thank you to The Rotary Club of Church and Oswaldtwistle who sponsored this residential!
